Day Two Welcome!

Saturday, November 16, 2019

www.menti.com – Code: 74 66 86

- Any questions from yesterday?
www.menti.com – Code: 74 66 86

What is your biggest take-away from day one?
Clinics by State -19 total

**Alabama**
- Southeast Alabama Rural Health Associates, Troy - PTE
- Five Horizons Health Services, Tuscaloosa – RW

**UAB** - PT Resource leads - coordinate CoP, online courses, speakers, protocols, etc.

**Georgia**
Create toolkit for implementing HIV testing & PrEP into health centers

**Kentucky**
- HealthFirst Bluegrass Clinic, Louisville - PTE
- Shawnee Christian Healthcare Center, Louisville – PTE

**Florida – North**
- Project Response, Fort Pierce – RW
- Unconditional Love Comprehensive Health –Melbourne, RW

**Florida – South**
- Rosie Lee Wesley Health Center – RW
- Jefferson Reaves, Sr. Health Center – RW
- Dr. Rafael A. Penalver Clinic - RW
- Premier Mobile Health Services, Lehigh Acres – non RW

**Mississippi**
- Delta Health Center, Mound Bayou – non RW (Funded July 2019 – Part B)

**North Carolina**
- Moncure Community Health – non RW
- Prospect Hill Community Health – non RW
- Duke Adult Infectious Disease Clinic, Durham - RW (also TA & Preceptorships)

**South Carolina**
- Carolina Health Centers- PTE

**Tennessee**
- Neighborhood Health Services, Nashville - RW
- West TN Regional Health, Jackson -RW
- Cherokee Health Systems, Knoxville – non-RW
- Community Health of East TN, Jacksboro, TN- PTE

Introductions
During Culture Change Presentation
Binder Highlights

- Blue page starts days two - PT/PTE contacts
- Sample protocols
- HIV Testing tools
- Fact sheets and Information for Patients
- Note Pages and Online Resources
- W-9s – Please complete before you leave today
- Evaluations – Required by our funders
- CME, CNE, Pharm and Social Work Credit Forms
Evaluation

We are required to evaluate all events, per our federal grant funding.

- There are evaluations for each session/presenter
- It’s easiest to do them as you go along.
- Thank you so much for completing these.
CME and Nursing Credit

- Instructions on claiming credit are in your binder
  - **CME**
    - Keep your info sheet and follow the instructions
    - First training – create a profile on the Vanderbilt CME site
    - **You have 30 days** – we can’t to this for you and we can’t extend the deadline
  - **Nursing**
    - Complete *yellow* form in packet and return to bin on the registration desk before you leave on Saturday
Survey Data is Still Needed

▪ All sites completed your Organizational Assessment! Well done! Thank you!

▪ Only 12 sites completed their Performance Measures
  ▪ Remember to check the box at the end “Survey Complete”

▪ Provider Assessments
  ▪ Should be completed by all providers at your clinic

Surveys were due 10/31
Services Provided – Organizational Assessment

HIV Testing

Who is Conducting HIV Testing at Your Clinics? (N=12)

- Prescribers: 11
- Non-Prescribers: 7
- Clinical support staff: 10
- Behavioral staff: 1
- Case management: 5
- Administrative Non-Clinical: 1

Number of Clinics
Who is Providing PrEP Services at Your Clinics? (N=12)

- Prescribers: 12
- Non-Prescribers: 3
- Clinical Support: 3
- Behavioral Health: 1
- Case Management: 3

Number of Clinics
PLWH in Care

- 11 of 19 clinics reported caring for PLWH
- 1,344 patients in care
- One clinic had 735 patients & another had 450 patients
- Three clinics made up the bulk of the remainder - 135
- Five clinics 1,320
- By the end of this project in 2024 all 19 clinics should be caring for PLWH
## Clinics Reporting HIV Care

</tr>
</tbody>
</table>
HIV in the South

For the last ten years, the South has accounted for approximately half of all new HIV diagnoses, representing 52% in 2017.
PrEP in the South

In 2017, the rate of persons using PrEP was approximately 2X higher in the Northeast than in the West, South, or Midwest.
SE PT Levels (year one goals)

Standard of Care – Level One

- Identify HIV Champions
- Increase % of patients with a sexual history in the chart
- Create an inclusive, stigma free clinic environment
- Increase HIV testing rates to Opt-Out testing
- Develop Linkage to Care Protocol

Prescribing PrEP- Level Two

- Conduct a risk assessment for all patients toward prevention of HIV
- Maintain effective linkage to care for patients testing positive for HIV
- Implement PrEP Prescribing
- Create Clinic management flow and protocols for PrEP
Ending the Epidemic

This is how we end the epidemic!

GOAL:

75% reduction in new HIV infections in 5 years and at least 90% reduction in 10 years.

www.hiv.gov
Ending the Epidemic

- What does that mean?
  - Generally, ending HIV transmission through increased testing, prevention for those who are negative, treatment for those who are positive, and effective interventions for outbreaks

- Why not “End HIV”
  - Without a cure, lots of people will continue to live with HIV – it’s critical to maintain a focus on antiretroviral therapy to ensure PLWH are able to become undetectable
Practice Transformation Web Page

PT Curriculum

- 12 courses, 2 with Spanish language versions
- ~1 hour long, separated into 5-10 minute videos
- CNE offered for all courses
- Some targeted to prescribers, some for all clinic staff
<table>
<thead>
<tr>
<th>Levels of PT</th>
<th>Corresponding Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level 1: Screen and test for HIV, deliver compassionate, culturally sensitive test results, complete a comprehensive sexual history</td>
<td>HIV Testing&lt;br&gt;Post Test Counseling&lt;br&gt;Quality Improvement in HIV Care&lt;br&gt;The Many Lives of Data</td>
</tr>
<tr>
<td>Level 2: Establish linkage to care after positive HIV test, assess risk and implement PrEP/PEP protocols, reduce stigma of HIV and LGBTQI, and create an inclusive clinic setting</td>
<td>PrEP&lt;br&gt;Caring for LGBTQ Patients&lt;br&gt;Project CONNECT (also in Spanish)&lt;br&gt;Linkage to Care (also in Spanish)</td>
</tr>
<tr>
<td>Level 3: Train clinicians to care for uncomplicated cases of HIV in primary care settings, provide HIV specialty care and increase knowledge of when to refer</td>
<td>The First 3 Months after HIV Diagnosis&lt;br&gt;The ABCs of ART&lt;br&gt;ART 101</td>
</tr>
<tr>
<td>Level 4: Learn advanced HIV care including common ART regimens, retention in care strategies, drug-drug interaction, monitoring labs, and medical outcomes</td>
<td>Retention in HIV Care</td>
</tr>
</tbody>
</table>
Other Online Resources

- Links to online resources on PT webpage
- Other online curricula offered by the SE AETC
  - https://www.seaetc.com/modules/
- Archived webinars
- Training by topic (Stigma resources)
  - https://www.seaetc.com/training-by-topics/
- PT website in process of reorganization and updating of resources
PT Community of Practice

- Monthly calls for Champions, Coaches, and any other PT clinic staff who would like to join
- 3rd Friday at 2pm-3pm CT/3pm-4pm ET
- Program updates, presentation on PT-related topics, discussion
- December: Delivering a Test Result
Annual Focus Groups

- Champions: during a CoP call
- Coaches: will arrange separate time
- Discuss achievements, challenges, and lessons learned in the previous year
One-on-One Calls

- Regular check-in calls with Coaches and Champions individually
- January and April 2020
- Discuss additional PT needs and challenges
- Please contact us any time with questions, to celebrate successes or to work through challenges!
Data

- Ability to extract data for reports is critical for needs assessment and to assess improvement
- UAB has extensive experience with the use of Electronic Medical Record (EMR) data for quality improvement and research
- Please reach out to us regarding data challenges
  - Site visits to UAB for consultation
  - Visits by UAB informatics experts to clinic sites
Thank you!

- Questions or comments?
